

"VHWD's Exciting New Chapter!" Message from Harrison

Greetings,

On behalf of our board members and the entire Virginia Health Workforce Development Authority (VHWD) team, we thank you for visiting and are thrilled to unveil some exciting changes here at the VHWD. It's more than just a new logo; it's a renewal of our commitment to enhance and empower the healthcare workforce in the Commonwealth of Virginia.

As the healthcare landscape in the Commonwealth evolves, we also intend to. The health workforce in our country is facing a critical challenge, marked by a significant exodus of professionals from the field, coupled with a growing reluctance among newcomers to join the sector. VHWD is dedicated to confronting the health workforce challenges in the Commonwealth directly, utilizing the full extent of our resources and expertise to foster meaningful solutions that make dramatic impacts.

VHWD is delighted to introduce a dynamic new logo and an updated mission statement that resonates with our goals. As the 2024 session of the General Assembly gets underway, we seek to refine VHWD code language to allow our organizations to take on a greater responsibility to amplify our impact on the healthcare workforce.

These changes represent our ongoing journey towards high-quality healthcare across Virginia. Our renewed pledge is to be at the forefront of health workforce development, ensuring that every Virginian has access to top-notch healthcare services.

Welcome to the new and exciting era for VHWD— an era where innovation meets compassion, and every action we take is dedicated to the success of the Commonwealth of Virginia.

Stay tuned as we dive into our vibrant new look and our refreshed mission. Please feel free to contact me or anyone from the VHWD team to join us on this journey!

Sincerely,

Harrison L. Hayes
Executive Director
